

How to mark your BOSEC product?

The labelling of products and systems is set out in general rules of the BOSEC mark, administrative and legal clauses. This notice is therefore only informative.

BOSEC mark of conformity for Products

The conformity mark has to be applied on the product in the form of a print or in the form of a label. It has to be indelible and to be presented in the form of the following label:

9XXX-YYY-A-nnn is the certificate number of the product where:

- 9XXX represents the license number
- YYY represents the sector
 - FD: Fire Detection
 - HSE: Heat and Smoke Exhaust
 - VAS: Voice Alarm Systems
- A represents the type of certificate
 - K: System component
 - H: Standalone detector
 - CX: Extinguishing component
- nnn represents the unique number for each product

Typography:

- Style: Time new Roman Bold
- Size: The proportions as in the above-mentioned example have to be maintained (no deforming). There is no minimum size and the characters always have to be legible and have to be identifiable with the naked eye.
- A minimum dimension of Time new Roman Bold 6 is however recommended.

Exemple:

For any further information please does not hesitate to contact the Certification Department of ANPI (certification@anpi.be).

BOSEC mark of conformity for Products and Systems up to 2028-12-31

The conformity mark has to be applied on the product in the form of a print or in the form of a label. It has to be indelible and to be presented in the form of the following label:

Where :

- 9XXX represents the license number
- YYY represents the sector
 - FD (Fire Detection)
 - HSE: Heat and Smoke Exhaust
 - VAS: Voice Alarm Systems

Typography

- Style : Time new Roman Bold
- Size : The proportions as in the above mentioned example have to be maintained (no deforming). There is no minimum size and the characters always have to be legible and have to be identifiable with the naked eye.
A minimum dimension of Time new Roman Bold 7 is however recommended.

During the transition period and in case that the same product is certified under several users of the mark, and if one of them is the Manufacturer of the component, it is sufficient to only apply the label containing the license number of the Manufacturer.

Note : The fact that the certification for a Product is held by another Holder does not in any way remove the responsibility of the holder of the certification for a System.

For any further information please does not hesitate to contact the Certification Department of ANPI (cert@anpi.be).
